

LET'S MAKE A BIRD BATH FOR YOUR BACK YARD

Add life to your garden by making your very own bird bath. It's a great way to learn about how your backyard can be home for wildlife such as birds, butterflies and little critters like lady bugs just by adding water, food and some shelter.

What you will need -
A bird bath base
Bowl
Some rocks or pebbles
Colourful stickers, paint
and beads

No need to go to searching the shops for the bath base, take a look around your house for a container, old plant pots, or even rocks..

The bowl for the top needs to be the right size to sit on top of the base and not too deep as the birds won't use it. Something bright and colourful will attract them.

You might consider adding a couple of rocks to the water so the birds have a place to perch.

Now it's time to decorate! This is the fun part. Use your stickers, paint, beads and anything else you would like to make your bird bath nice and bright. Then fill with water. Be sure to refresh water every few days.
