INDOOR PLANTS LATEST IN THE INDOOR RANGE

WELCOME TO

Autumn

Amazing Autumn!

As the weather cools ever so slightly and the days begin to shorten in our beautiful part of the world, our gardens beckon!

We are so fortunate to have mild weather right through Autumn and even into Winter in Queensland. Perfect amounts of sunshine and rain see gardens and lawns breathe a little sigh of relief from the heat of summer. The days are beautiful and it's time to start planting!

Whether you are a lover of flowers, keen vegetable producer or foliage fanatic there is an abundance of beautiful Pohlmanns' quality plants available to you this season. We have been actively looking for new plant releases and have some wonderful new products joining the range.

New season pretties like pansies, violas, primulas, cinerarias and sweet peas will brighten your world with colour, and our multi-pack ranges provide great value and instant results! Vegetables like broccoli, cabbage, cauliflower and spinach will gift you with delicious and nutritious meals right through the cooler months. There really is nothing like produce straight from the garden to your table.

Spending time in the garden is proven to have wonderful health benefits including improved mental health and fitness levels, not to mention the joy of seeing the results of your hard work. A sense of pride and satisfaction knowing that you are making a difference in your neighbourhood and for the environment is an added benefit! We wish you a lovely Autumn season and hope you find lots of inspiration in this catalogue.

The Pohlmanns team

CAULIFLOWER WHITE

Produces medium to large 10-15cm heads. The crisp edible stalks and flower heads can be used fresh, pickled or frozen. High in antioxidants, vitamins C and E and folate.

AUTUMN EDIBLE BLOOMS

A chef inspired combination of **Calendula**, **Cornflower**, **Dianthus** and **Pansy** flowers that can be used to jazz up your gourmet creations.

GOURMET VEGIES

Winter Range

BABY BROCCOLI

High in vitamins and rich in antioxidants. A sweet delicious flavour. Stems and small heads can be harvested continually for extended periods. Ideal for stir fries, steaming, pasta or salads.

PEA SHELLING

Fresh is best. Packed with nutrients and fibre, can be eaten fresh or can be frozen for later use.

INDOOR

Plants

STUDIES HAVE SHOWN INDOOR PLANTS HAVE MANY BENEFITS. THEY CLEAN INDOOR AIR BY ABSORBING TOXINS, INCREASE HUMIDITY AND PRODUCE OXYGEN. ADD LIFE TO A STERILE OFFICE, GIVE PRIVACY AND REDUCE NOISE LEVELS. THEY BOOST MOOD, PRODUCTIVITY, CONCENTRATION AND CREATIVITY.

Peperomia

PEPEROMIA DIAMOND

These cute diamond shaped leaves look great in hanging baskets as they cascade over the edges. Compact in habit, they suit smaller pots and hangers and thrive in well-lit positions.

Available in 130mm pots from March.

PEPEROMIA WATERMELON

The unicorn plant for many collectors and it's easy to see why. A real eyecatcher with its unique leaf patterns resembling the skin of a watermelon. Glossy round veined leaves with red petioles.

Available in 130mm pots from March.

Limited numbers.

PEPEROMIA 'PICCOLO BANDA'🌿

This unique form of Peperomia has a distinct veined pattern. Each leaf is pale silvery green with dark green almost purple veins.

Available in 130mm pots from March.

Limited numbers.

HOMALOMENA MAGGIE

Low maintenance, lush and green, Maggie is a native of South West Asia and won't disappoint. Its lush leaves sit atop stems that vary from green to red.

Available in 130mm pots from March.

MONSTERA MONKEY MASK

The compact cousin to the Monstera Adansonii the Monkey mask makes a good addition to your indoor collection. A lot bulkier and bushier than its distant cousin it will make for a great display plant in your home.

Available in 130mm pots from April.

MONSTERA SILTEPECANA

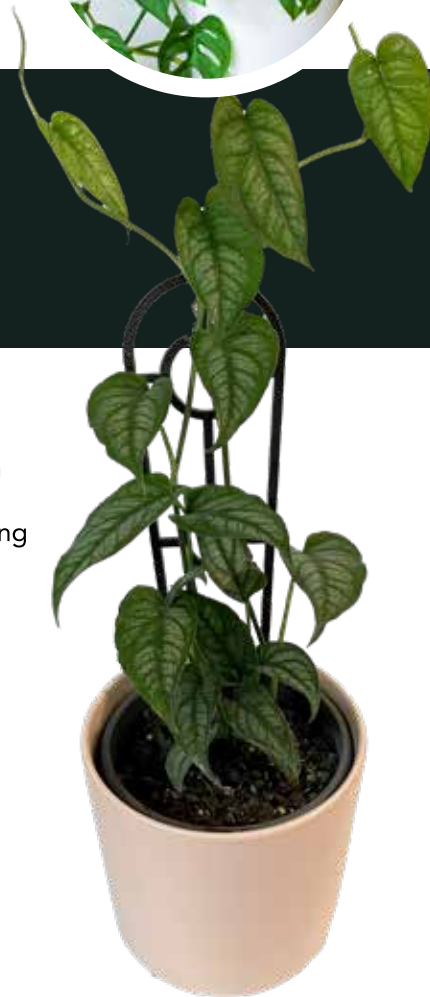

Another one for the collectors, this Monstera has striking dark green veins and silvery patches. Will want to climb onto a totem or hang from a basket.

Available in 130mm pots from March.

MONSTERA LECHLERIANA

The lesser known cousin of the Swiss Cheese plant, but just as attractive with less holes found in the leaves. Loves to climb on totems or forms a great hanging baskets. Fast growing and makes for a great display plant.

Available in 130mm pots from March.

PHILODENDRON FLORIDA BEAUTY

A hybrid and native to Central and South America, this easy to care for house plant thrives in warm conditions. It has distinct large green leaves with lobes and will climb if given support.

Available in 130mm pots from March.

CYANOTIS FUZZY EARS

Is actually an evergreen succulent that features long green leaves with fine white hairs. Great in hanging baskets. Is a slow growing, low maintenance plant.

Available in 175mm hangers from April.

Begonia

BEGONIA MEDORA

A unique cane like Begonia with silver spotting on the leaves with a purple underside. Small pink flowers are produced from Summer to Autumn. Grown best in a shady position or inside as a house plant for short periods.

Available in 130mm pots from March.

Hedera

A great range of new Hedera Ivys have been added to the Life Indoors range. With thousands of cultivars the foliage comes in a number of shapes, colours and sizes. Incredibly versatile, they can be used indoors as a specimen on a totem or outdoors to help hide a wall or to cover the ground. They can also be used in topiary.

Available in 130mm pots from March or 175mm hangers from March.

PARSLEY CRESTED

This deep green ivy has eye catching curled leaf edges which resembles the curly afro parsley.

CAMOUFLAGE

Small to medium lobed shaped leaves with a heart shaped based. Highly variegated with a unique camouflage pattern. Great for hanging baskets or green wall addition.

GOLDHEART

This impressive fast growing ivy has golden leaves. Can be used to cover fences and walls or enmasse in a basket display or totem.

STARDUST

A highly speckled leaf of cream and green , makes this ivy a must have. Its marbled foliage will make a great display in a hanging basket as it spills out over the edges.

Flower Carpet® roses, also often referred to as The Carpet Rose®, are the world's number one ground cover rose. Once established, some varieties can produce an astonishing display of up to 2,000 flowers from spring through to autumn. They are extraordinarily low maintenance and have exceptional disease resistance. Better still, once established their well-developed root system means they're drought and low-water tolerant: surface roots take up available surface water while deeper roots access lower level water in drought conditions. Pruning is optional: once a year in late winter or early spring. Grab a pair of garden shears to cut them back by a third any which way. Don't want to prune, no worries either, they will still flower prolifically on a slightly larger bush. Available in 175mm pots all year round.

Gold

White

Pink Splash

Pink

Amber

Red

Apple Blossom

The Velvet range of Plectranthus have come about from an extensive breeding program; they feature dramatically larger flowers on stunning foliage and have a more naturally neat habit compared to others available.

**You know Velvet Elvis,
meet the stunning Velvet Lady!**

Available June / July in 140mm pots

POTTED Colour

AGERATUM

Sometimes referred to as a floss flower, ageratum have small blooms that look like tiny pom-poms covered with floss-like filaments. Their flowers can be cut and used inside the home in a vase. It comes in various shades of pink, purple and blue and is very popular with pollinators. They "bury their dead" which means they are so floriferous and fast growing that there is no need to deadhead spent blooms—the plant will quickly grow past it and take care of itself.

Available in 140mm pots from March to May.

Rosa Alpina

Cutie Pie[®]

This newly introduced genuine miniature rose features apricot pink blooms in summer and will stay small and low growing. It's ideal for planting in a pot or adding to the front of a well-drained sunny border. Hardy and flowers profusely with no thorns.

Available in 140mm pots from March.

Grandessa®

BIG BOLD *Beautiful*

Grandessa® flowers are 50% larger than a standard daisy.

Bred in Australia for Australian conditions.

*Grandessa is a registered trademark of Oasis Horticulture Pty Ltd.

COLOURWAVE®

cuphea

Honeybells

loved by pollinators!

A beautiful NEW trailing cuphea that is very heat & drought tolerant. Bright red tubular flowers with green and yellow highlights literally cover the plant.

Blooms all summer long in full sun or part shade. Use as a container plant or en masse in landscapes and is a real showpiece in hanging baskets.

A wonderful food source for pollinators!

- Full sun
- Height: 25-30cm / Width: 35-50cm

look for this variety from your local garden retailer!

PETUNIAS

CONSTELLATION

The eye-catching Constellation series features a range of stunning purple and white speckled/spotted flowers. It has a mounding, trailing habit which goes well in hanging baskets and pots. A real talking point for any garden with its unique flower forms. Four different patterns/colour forms – be sure to collect them all (Virgo, Gemini, Aries, Pyxis).

Available in 140mm pots from late April.

MIDNIGHT GOLD

A unique first of its kind novelty petunia. It features large double blooms and it flowers profusely. Makes a great display in a hanging basket or as a feature pot. The blooms are a rich dark purple with light golden tips which makes for a one of a kind colour.

Available in 140mm pots from June.

BLUEBERRIES & CREAM

Produces large numbers of flowers with a double deep purple/blue flowers with white edges. With its cascading, trailing habit, it makes a great display in hanging baskets or in garden beds as a carpet of colour.

Available in 140mm pots from June.

LAVENDER

ETERNITY SILVER LINING™

Bred and selected for its superior attributes to other lavenders, Eternity Silver Lining™ not only has stunning aromatic silver foliage and magenta pink flowers with lighter pink flags, it also features a self-branching, naturally compact habit, the ability to repeat bloom with flowers on each tip, is able to withstand heat, humidity & cold.

Available in 140mm pots from June to August.

FRENCH LAVENDER

A great addition to the Living Colour range and perfectly suited to Qld conditions. Its saw-toothed grey green foliage makes an attractive plant with beautiful scented flowers. Great to attract pollinators to your garden and the dried flowers make great potpourri.

Available in 140mm pots from June.

DIGIPLEXIS

An innovative cross between common *Digitalis purpurea* and a rare plant from the Canary Islands, *Isoplexis canariensis*, the cross has become known as **Digiplexis**. The resulting plant is strong growing with plenty of blooms. They are semi evergreen, rather than biennial and the crown will last for many years. These large, showy plants are a striking addition to any garden.

Available in two colours:

Berry Canary - Tall spikes packed with raspberry pink flowers. The throats are a softer tone with pretty pink spots.

Firecracker - soft orange/yellow flowers with hints of rosy overtones.

Unlike most Foxgloves which come and go within six weeks, Illumination Foxgloves can flower for up to an incredible six months and they are multi branched so you get more flowers than ever.

Available in 175mm pots from July.

FOXGLOVES

PANTHER

Stunning digitalis with a profusion of pretty pink flowers that appear from early Spring through to late Autumn. Strong habit and shorter stems growing from 50-90cm. Can be used in large pots or garden beds and won't produce seeds or become invasive. Attracts butterflies and bees as a natural pollinator.

Available in 175mm pots from July.

COLOURWAVE

Senetti®

- Gorgeous winter colour
- Maximum **WOW!** factor, with an abundance of colourful flowers
- Unique re-blooming ability for longer enjoyment in the garden

DIANTHUS

CALIBRACHOA ORANGE DIVA

Diva Orange brings an interesting colour-changing pattern to the Calibrachoa range. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning so they stay neat and tidy all season. They are heat tolerant and pollinators love them. Great for baskets and mass displays in the garden beds.

Available in 140mm pots from March.

ANGEL OF DESIRE

Features pink and white blooms with a strong fragrance. Loaded with flowers from Spring through to Autumn. Makes for a great gift item for Mother's Day. Tough garden performance or in pots and prefers a full sun position.

Available in 140mm pots from April.

CLEOME CLIO

This new breeding of Cleome brings a more compact sterile hybrid which flowers throughout the growing season without thorns. Showy spider like flowers will thrive in pots and gardens.

Available in 140mm pots from May.

Dianthus

THE GIFT THAT SAYS...
'Thinking of You'

Fragrant with long lasting appeal, these 3 varieties of Dianthus resemble a bouquet of flowers, making them the perfect gift to say something special.

They have a strong symbolic connection with love and their easy to care for habit, makes this

range of Dianthus a timeless offering.

- Full sun
- Height: 30-40cm
- Width: 20-25cm

Purple Wedding

- Full sun
- Height: 30-40cm
- Width: 20-25cm

EXCEPTIONAL FLAVOUR

STRAWBERRIES

NEW

Pohlmans have been working with local breeders, the DPI and commercial runner producers to bring a new range of high yielding strawberries produced by runners and bred for QLD conditions.

These varieties have been bred for their high sugar content, suitability to QLD environment, and most importantly the home garden performance. The beauty of these are they aren't 'supermarket' varieties but best suited to home gardeners, because they are best picked and eaten within a day. Super sweet and super juicy. Supermarket types tend to have longer shelf life but not be as sweet.

Available in 125mm pots from May to July.

LOWANNA

A day-neutral variety and forms a medium dense, highly productive plant. Fruit is conical and glossy red in colour when fully ripe. Flesh is light red throughout and firm. In frost-free regions, with the right care Lowanna will produce fruit almost all year round.

REDLANDS JOY

Fruit is large and one of the sweetest strawberries in Australia. Produces high yields throughout the season. Softer, more tender and a little lighter in colour than Californian varieties. Resists rain damage. Fruit are well displayed and easily harvested.

RUBY GEM

A very popular variety in QLD. Fruit production commences very early & continues throughout the season. Fruit is attractive, exceptional flavour, uniformly shaped, moderately dark red, glossy, short conical to slightly wedged, medium to large (20g), firm & resilient, with some resistance to rain damage. Flesh is dark red, of medium acidity and consistently good flavour.

SUGAR BABY

A mid-season variety. Fruit production commences in early June. Fruit are exceptionally attractive red, glossy, conical, L to XL sized (20g), firm and resilient, with resistance to rain damage. Flesh is bright red, of low acidity, and excellent sweet flavour. Fruit are well displayed, and easily harvested. Eating quality is exceptionally high.

SAVOUR THE FLAVOUR OF HEIRLOOM VEGETABLES

— THE DIGGERS CLUB —

PERFECT FOR PLANTING NOW....

CAULIFLOWER

'MINI'

The perfect cauliflower for smaller gardens or where space is a premium

KALE

'TUSCAN BLACK'

The most popular form of kale, this elegant member of the cabbage family brings an ornamental value to the veggie garden.

SPINACH

'BLOOMSDALE'

This popular and easy to grow spinach has thick, crinkled bright-green leaves that are rich in antioxidants and vitamins.

LETTUCE

'HEIRLOOM MIXED'

A superb mix of 'The Diggers' favourite heirloom lettuces, bringing colour and variety to the garden and table.

BEAN

'ITALIAN ROMANO'

This dwarf Italian heirloom is a versatile bean that is delicious as a green bean as well as a dried bean for use in casseroles and soups.

CHILLI

'JOE'S LONG CAYENNE'

An incredibly mild and highly productive chilli that bears vibrant red chillis like Christmas decorations.

SILVERBEET

'FIVE COLOUR MIX'

Ornamental and edible, this is a touch accent plant suited to any flower or vegie garden.

Why grow heirlooms?

Generations of gardeners can't be wrong! The Diggers Club have championed the heirloom movement and here's why...

They have superior flavour, excellent disease-resistance and varieties that cannot be found at the supermarket. The best choice for home gardeners, they are like treasured antiques, passed from one generation to the next because of their superior flavour and long harvest. Specialising in hard to find vegetables and flowers, the Diggers Club trial and taste what you grow, so that you can savour the flavour of heirlooms enjoyed by generations of gardeners, just like you!

The benefits of heirlooms

- Varieties have been selected over generations by home gardeners.
- An extended harvest, as heirlooms do not crop all at once.
- Homegrown vegetables have nutrients, flavour and texture that is lost during transport and storage before reaching the supermarket.
- Huge range to choose from: colours, flavours and varieties to suit all gardeners and taste buds.
- We have trialled and selected all varieties to endure both productivity and flavour.
- Offering a wide range of diverse vegetables, means that everyone can find something they like and it's better for bio diversity.

To join the heirloom revolution or for more information visit DIGGERS.COM.AU

Basil Greek	Mint Thai	Rosemary Officinalis
Basil Lettuce Leaf	Mint Ginger	Sage
Basil Lime	Mint Mojito	Spinach Baby
Basil Sweet	Mint Banana	Thyme Lemon
Catgrass	Mint Garden	Thyme Pizza
Chive Normal	Oregano Green	Thyme
Coriander	Parsley Italian	
Curry Plant	Parsley Afro	

Basil Pesto

2 1/2 cups fresh basil leaves
2 Tblsp grated Parmesan cheese
3 cloves garlic, roughly chopped
2 Tablespoons pine nuts, toasted and cooled
1/4 cup extra virgin olive oil
Salt & Pepper to taste

In a food processor, combine the basil leaves, parmesan cheese, garlic, toasted pine nuts, kosher salt and pepper until well blended.

While the food processor is running, drizzle in the olive oil, scraping down the sides as needed, until the pesto is puréed.

Serve immediately with your favourite pasta or store in the fridge for up to 5 days.

LIFE Outdoors

AJUGA PRINCESS NARDIA

Has colourful variegated foliage giving your garden year round colour, the tip growth is pink and intensifies during the cooler months and in partly shaded positions.

Easy to grow, this compact plant produces large flowers, profuse and repeat blooming. Full Sun.
