WELCOME TO

Spring

Spring has arrived and the daylight hours are getting longer. It's an exciting time for gardeners as the next wave of flowering plants begin to shine. It's also time to prepare those garden beds and pots around the home for the warm season annuals and summer vegetables. Let's get back into the garden together and prepare and plant for the warm sunny days ahead.

We have some exciting new plants to highlight to you in this latest edition of our catalogue, along with the usual all-time favourites for this time of year. Tried and tested at our family-owned nursery here in sunny Queensland you can rest assured the plants will provide you with years of enjoyment. Look to plant your sun loving annuals for months of colour, warm season vegetables and hardy natives and perennials.

Keep an eye out on our social pages for more tips, ideas and great new plants.

Hibiscus

Pohlmans have one of the largest hibiscus collections available year-round. From our showstopping single flowering varieties in all colours of the rainbow, to the huge double flowering hibiscus.

The unique Petites range which are covered in flowers almost year-round are an eye-catching addition to any garden or perfect in patio pots. Be sure to check the full range available. Hibiscus benefit from a trimming once a year in late winter and early spring and they will reward you with loads of flowers and lush growth.

Available in 140mm pots all year round.

Petite

Smaller in flower size but these compact plants are loaded in blooms most of the year.

GROW YOUR OWN

SUMMMER FRUITS

PASSIONFRUIT

Passionfruit vines are an incredible plant to grow in any garden. Not only do they produce delicious fruit, but their vine can also serve as a stunning camouflage over unsightly fences or walls. Available in a range of different skin colours their mouth-watering, sweet flesh is perfect for desserts.

- Edulis Black
- Pandora Red
- Golden Nugget

BLUEBERRY

BLUE ROSE

A self-pollinator with medium chill hours required. Has lovely autumn colouring in the foliage and produces abundant fruit from January to March. Allow fruit to ripen on the bush for maximum sweetness.

Available in 125mm pots from October.

NORTHLAND

A self-pollinating variety, Northland produces abundant fruit from December to March. Fruit continues to get sweeter the longer it hangs on the bush. Grows to a height of 2m x 1.5m wide. Suitable for pots.

Available in 125mm pots from November.

GRAPES

MENINDEE SEEDLESS

One of our favourites and best sellers. A large oval seedless grape with light green skin and crisp fresh tasting flesh. Fruit is harvested from mid Jan to Feb and is considered one of the best eating grapes.

RED GLOBE

A large, round seeded grape with pinkish red skin. It has a crisp texture and sweet flavour. Later harvest from March to May.

WHITE MUSCAT

A popular table grape. Large yellow-green, seeded grapes. Firm, very sweet flesh and strong Muscat flavour. Not vigorous but bears heavily. Requires warm climate. Mid to late season. Can be dried as raisins or used to produce white Muscat wine.

BLACK MUSCAT

A table or wine grape. Produces compact bunches of round, plump, black fruit with a strong Muscat flavour. A vigorous and reliable vine.

CITRUS

LEMONICIOUS & SUBLIME

Citrus Lemonicious & Citrus Sublime are compact growing small trees bearing, very juicy, and versatile home-grown fruit. In a large pot, they reach around 1.5m x 1m, creating the ultimate decorative pot for your outdoor living area. Frost and coastal tolerant they are easy to grow and easy to maintain.

Fresh is best, and for added vibrance in your garden and in every meal, Hidden Valley Herbs are the perfect addition. A range with the most popular culinary flavours available, Hidden Valley Herbs are selected for the home gardener/chef to enjoy convenient, high quality, home-grown herbs with a perpetual life.

Available varieties: Basil Purple • Basil Greek • Basil Lettuce Leaf • Basil Lime • Basil Sweet • Catgrass • Chive Normal • Coriander • Curry Plant • Dill • Mint Thai • Mint Ginger • Mint Mojito • Mint Banana • Mint Garden • Oregano Green • Parsley Italian • Parsley Afro • Rocket • Rosemary Officinalis • Sage • Thyme Lemon • Thyme Pizza • Thyme

FRESH SALADS

at your fingertips

It's a fact of life,

"Fresh is Best"

There is simply no better way of having fresher vegetables packed with nutrients and fibre, than harvesting them right from your very own garden.

TOMATO FAVOURITES

4 popular tomato varieties in the one pack!

Grosse Lisse

A mid to late season variety producing medium to large sized fruit.

First Prize

A heavy yielding variety producing round, flat shaped, bright red fruit.

Roma

An egg variety, producing low acid, pear shaped, medium firm, deep red fruit.

Cherry

An indeterminate variety producing 2cm size fruit with a sweet flavour.

Melon Mouse

A cucumber relative that produces an abundance of grape sized fruit which resemble miniature watermelons rather than cucumbers. Use raw added to salads, whole or sliced and even to salsa sauces. May also be pickled as for other gherkins or chopped and cooked in stir fry. Ideal for kid's lunch boxes.

Lettuce Bistro Blend

All lettuces provide some potassium, fibre and folic acid to the diet. This delightful mix of leaf lettuces can be harvested a leaf at a time. Including red and green cos, plus oakleaf types, this mix will provide a colourful addition to any salad or sandwich.

Cucumber Patio

Specifically bred for patio and pot gardening. The neat, compact plant produces high yields of deep green 15-20cm fruit. Pick regularly to encourage more fruit. Can be used for pickling, salads and sandwiches.

THE DIGGERS CLUB

Why grow heirlooms?

Generations of gardeners can't be wrong! The Diggers Club have championed the heirloom movement and here's why... They have superior flavour, excellent disease-resistance and varieties that cannot be found at the supermarket. The best choice for home gardeners, they are like treasured antiques, passed from one generation to the next because of their superior flavour and long harvest. Specialising in hard to find vegetables and flowers, the Diggers Club trial and taste what you grow, so that you can savour the flavour of heirlooms enjoyed by generations of gardeners, just like you!

The benefits of heirlooms

- Varieties have been selected over generations by home gardeners.
- An extended harvest, as heirlooms do not crop all at once.
- Homegrown vegetables have nutrients, flavour and texture that is lost during transport and storage before reaching the supermarket.
- Huge range to choose from: colours, flavours and varieties to suit all gardeners and taste buds.
- We have trialled and selected all varieties to endure both productivity and flavour.
- Offering a wide range of diverse vegetables, means that everyone can find something they like and it's better for bio diversity.

To join the heirloom revolution or for more information visit DIGGERS.COM.AU

GORGEOUS GERANIUMS

Geraniums are tough and love a sunny position in your garden. With big bold colours, they are easy care and a great addition to almost every garden.

BIG RED

Dark green leaves and big, bold red flowers adorn the number one selling geranium in the world. Tried and true! Big Red will transport you to the streets of Italy with their window boxes dripping with red geraniums. Flower almost all year round and will handle the heat and humidity of Australia.

OH SO ORANGE

A true orange geranium that is truly eye catching. Large bright orange flowers makes this geranium a must in the garden or feature pot.

TEX MEX

We have added some new colours to the Tex Mex range which are perfect for that warm sunny spot in your garden. Bring a touch of the Mediterranean to your garden.

IVY GERANIUMS

Available in our Floweressence 4 pack range, these beautiful ivy geraniums are perfect for hanging baskets and a great addition to any combination planting. Their crawling, trailing habits intertwine with other plants and spill out over the edges of the container.

SENECIO

Angel Wings

This unique eye-catching perennial will be a showstopper for your garden. Its silvery foliage is hard to resist. Originating from Chile, it is drought and salt tolerant. Makes a great statement in the garden but equally as a stand-alone plant in a display pot. Fast growing and it forms a nice clump in the pot. Looks great contrasting against vibrant colour.

Available in 175mm pots from September.

GERBERA

Garvinea

This garden range of Garvinea's are a class above the rest. A full range of colours that handle heat, humidity and continue to provide loads of flowers. Perfect for pots or garden beds in warm sunny locations. Pest & disease tolerant.

CALIBRACHOA

Sun Bells

Calibrachoa Sun Bells is a compact, mounding plant with a trailing habit that is ideally suited to hanging baskets, mixed containers or as a colourful ground cover. It produces an abundance of flower power through masses of 2.5cm flowers in yellow, red, blue, pink and white and has exceptional garden performance.

DIANTHUS

Beautiful, long-lasting flowers are the showpiece of this versatile range of perennial dianthus. An abundance of flowers on short stems creates the appearance of a bouquet of flowers making them perfect for dressing up as the perfect gift.

Relatively heat and drought tolerant, they also make a great landscape garden plant. Cut back hard after flowering and you will continue to enjoy their beauty for years on end.

CUPHEA

Firecracker

Firecracker is covered in red and purple flowers and creates a spectacular display against its solid green foliage. Tiny cigar shaped tubular flowers attract pollinators to your garden. Is heat and drought tolerant and will be sure to brighten up any garden space. Grows to 50cm wide and 25cm high.

Pink Kisses

Peach Party

Purple Wedding

NEW Kaylee

ALSTROEMERIA

Mixed

Also known as the Princess or Peruvian Lillie, Alstroemerias are native to South America and form a low maintenance clump when established. They bring a burst of colour to your garden and make for an excellent cut flower with extended vase life. A vast range of colours will make a continual show in the garden right through till Autumn.

Available in 175mm pots from September.

Great value Impulse colour Instant garden

**Bloomin Value 10 pots & Mega 4 Pots give you a head start by having a plant in flower.
No more guessing, mix and match colours before you plant to create the
desired colour effect in your garden**

Roses

TOP
SELLER

Fragrance King

A stunning patio rose with a very strong fragrance. Produces an amazing display of salmon pink flower on a compact frame with glossy green foliage. An outstanding performer in pots or the garden. Height 40-70cm.

Carmen Red

A stunning dark red patio rose with glossy foliage and large 7-8cm flowers. Perfect for pots or well suited to garden planting. Height 40-70cm.

Juicy

A beautiful patio rose with large 7-8cm flowers with apricot pink hues. Height 40-70cm.

Festival

A stunning patio rose which produces an amazing display of bright yellow blooms which change to coral as they age. Height 40-70cm.

Clear White

An impressive patio rose producing pure bright white 5-6 cm blooms. Height 40-70cm.

Neptune King

An outstanding patio rose producing show stopping extra large 9-10cm flowers with watermelon and pink tinges. Height 40-70cm.

Our rose collection continues to grow with the additions of the Showpiece and Flower Carpet collections. We now have roses for all conditions and uses.

If a ground cover rose is required we have the Flower Carpets, in a range of 7 delightful colours. We have the fantastic new Showpiece Rose with 4 colours currently and more to come, these bush roses are great for the garden and larger pots around the home. Highly fragrant and with their long stems can be cut and placed into a vase for enjoyment.

The Jewels range are more compact and perfectly suited as a gift or for a small space in your garden. Loaded with flowers and follow up buds the Jewels range will bring months of enjoyment. Also available are these stunning varieties.

HOUSE PLANTS

Indoor plants and home décor is still very much on trend as we continue to work more from home. All the rooms in the house now have space for plants including the home office, bedrooms as well the kitchen and bathroom. Whether it's a small peperomia or a hanging Philodendron, there's a plant for every place.

CALATHEA

Calathea is a genus of plants with over 200 species. Part of the Marantaceae family some are commonly called Peacock plants or Prayer plants due to their nature of folding their leaves upwards during the night. They have amazing leaf colours with varying patterns which make them highly desirable in the garden and for indoor plants.

Our calathea range includes:

Freddy

Julia

Illustris

Medallion

Bicajoux Pink

Makoyana

White Fusion

BEGONIA

BELEAF RANGE

Rex begonias are making a comeback. The Beleaf range are a collection you must see to 'Beleaf'! Each begonia has unique colours and markings, you will be wanting to collect them all. Originating from tropical rainforest region, the Beleaf Begonia has been developed for optimal use as a house plant. They enjoy light but avoid full sun in summer months. Water 1-2 times per week. Remove the older leaves as they mature so the younger leaves have room to develop.

Asian Tundra

Purple Blush

Amazon River

Alaska Creek

Maori Haze

Nautilus Lilac

ALOCASIA

RED SECRET

NEW

Red Secret - with its dazzling shiny leaves, it will stand out in any setting in your home. The leaves have a deep burgundy sheen with prominent veins. The leaf looks almost scale-like in its appearance. Prefers a warm position.

Available in
130mm pots from
September.

MONSTERA

SILTEPECANA

An epiphytic or climbing plant from the southern American jungle, this plant will make an impression on you. It loves to climb or trail so give it the space on a totem and it will make a great display plant. Has a dark green veiny leaf.

Available in 130mm pots from September.

PEPEROMIA

VANILLA

NEW

Glossy green ovate leaves which stand out from the crowd make this peperomia a must have in your collection. Low growing clumping form with little white flowers appearing in the warmer months. Perfect for small pots on your kitchen bench or office workspace.

Available in 130mm pots from September.

WATERMELON

A cute native of south America this peperomia has leaves that resemble watermelons. Large specimens make for an incredible display plant.

Available in 130mm pots from October.

PICCOLO BANDA

This cute mini watermelon Peperomia is a great house plant. Perfect for the small pots its leaves resemble mini watermelons.

Available in 130mm pots from September.

RED WATERMELON

NEW

A unique new cultivar with its heart shaped leaves and silvery leaves and red underside. Perfect in small spaces and pots around the home. Pinching out the flower stem will help the plant branch and fill out the pot.

Available in 130mm pots from September.

DIAMOND

A prostrate, trailing form of peperomia which suits small hanging baskets. It sprawls and tumbles over the sides of the pot making for a great addition to your collection. It displays diamond shaped leaves with bright green veins.

Available in 130mm pots from September.

COMING SOON
to hanging baskets:
Philodendron Brazil,
Monstera Adansonii
Philodendron Micans.

POTHOS

SILVER

Slightly raised silvery splashes cover the dark green leaves. With a slightly larger leaf than its closely related 'Satin' form, the Silver Pothos is slow growing, but makes an incredible display in hanging baskets and totems.

Available in 130mm pots from September.

MANJULA

NEW

The Pothos Manjula is a close relative to the Snow Queen pothos. It features wide heart shaped leaves with shades of white, cream and light green. Can be tip pruned to remain compact in pots or allowed to trail and fill a hanging basket.

Available in 130mm pots from October

SATIN

Silvery grey spots adorn the dark green heart shaped leaves of this cute Pothos. Compact and slow growing, it's a collector's addition and perfect for hanging baskets.

Available in 130mm pots from September.

CEBU BLUE

NEW

An evergreen tropical vine which displays a unique silvery blue-green tinge on its leaves. A climbing trailing plant which will look good trailing in a hanging basket or climbing up a totem. Low maintenance and slow growing.

Available in 130mm pots from October.

SYNGONIUM

FANTASY

NEW

Like its closely related cousin 3 Kings, the Fantasy Syngonium has striking green and pure white variegated leaves. Some leaves will be almost white whilst others will have splashes of green and white making each leaf a wonderful surprise as they unfurl.

Available in 130mm pots from October.

3 KINGS

NEW

This highly sought after syngonium has a striking green and marbled white arrow shaped leaves. No two leaves have the same markings. Low maintenance and very hardy this syngonium won't disappoint.

Available in 130mm pots from October.

ZAMIOCULCAS ZAMIIFOLIA

'ZENZII'

An exciting new plant addition, the zenzii was first discovered in India and like its cousin, the original ZZ plant, it thrives on neglect. Its compact in habit and has tight glossy green leaves. Shorter nodes between the leaves gives the plant its unique shape and character and thicker bowed leaf stems gives it a more robust look.

Available in 130mm pots from October.

'JUNGLE WARRIOR'

The darker leaf form of the green leaved ZZ plant, the Jungle warrior is a true stunner. Its new growth starts out lime green and makes for an amazing contrast against the mature dark black foliage. A true collectors black which makes for a great statement plant in a white pot. Does well in low light areas and thrives on neglect.

Available in 130mm pots from October.

DIAMONDS
IN THE DARK®
CREPE MYRTLES

Diamonds in the Dark® are a revolutionary new range of Crepe Myrtles. They feature flawless near-black foliage that emerges in early spring, followed by masses of vivid blooms from summer until first frost.

Available in 9 amazing flower colours!

DiamondsintheDark.com.au

EXQUISITE

GARDENIAS

Gardenias are an outstanding flowering shrub grown for their exquisite, fragrant flowers and beautiful, glossy green foliage. Gardenias make a great display plant in any garden, either as a single species, hedge or ground cover. Check out our extensive range and add a touch of magic to your garden!

Professor Pucci

Golden Magic

Ocean Pearl

A beautiful Gardenia. **White Gold™** is bushy & evergreen, producing large & abundant highly scented double white flowers. These flowers then age to a rich golden yellow giving a striking two tone appearance against the large, deep green foliage, throughout Spring & Summer.

Our range also includes:

- Aimee Yoshiba
- Florida
- Magnifica
- Grandiflora Star
- Four Seasons
- Lacey Lady
- Love

Cream

Blush

White

THESE MAGNOLIAS ARE QUICK TO GROW & LOVE TO BLOOM.

They are bushy evergreen beauties that are fabulous for hedges. Extremely floriferous with fragrance. They can be grown as a specimen plant or as a flowering hedge.

Available in three colours in 140mm pots from February

TRACHELOSPERMUM STAR JASMINE

A classic evergreen climber or creeping ground cover which gets covered in beautifully fragrant, white star shaped flowers from Summer to Autumn. Performs well in a range of conditions and looks brilliant with very little care.

Climbers

Our climbing collection range has a diverse range of plants to suit a number of situations in your garden. Whether it's to hide an ugly fence or to create a statement piece on a garden arbour we are sure to have the climber to suit your needs.

Jasmine

Evergreen climbers with beautifully fragrant flowers.

JASMINE ARABIAN

A beautiful, evergreen climber with large, glossy, green leaves and bearing masses of fragrant, waxy pure white flowers in Spring that fade to pink as they mature.

HARDENBERGIA PURPLE

A fast growing, evergreen climber with leathery, dark green leaves. In winter and spring produces a mass of showy, pea-shaped flowers of a rich violet-mauve colour.

JASMINE POLYANTHUM

A beautiful, evergreen climber, bearing large clusters of fragrant, white, star-shaped flowers opening from pink buds. The deeply divided foliage is dark green and glossy. Fast growing, low maintenance and loaded with flowers in spring.

Mandevilla

A stunning climber ideal for large patio pots and areas of trellising. These outstanding performers produce shiny evergreen foliage which contrasts against their extra-large flowers which appear in the warmer months of the year.

Deep dark red flowers on glossy dark green leaves makes Firestorm a true standout. It pairs well with the white crisp clean white flowers of the Snowstorm and makes a great display in hanging baskets as well.

FIRESTORM

SNOWSTORM

Hedera

A fast growing, hardy, evergreen groundcover or climber with broad heart shaped,, ornamental foliage which will cling to walls. Faster growing than the English Ivy and better suited to our Queensland climate.

HEDERA CANARIENSIS GREEN

HEDERA CANARIENSIS VARIEGATED

Solanum

A fast growing, easy care, evergreen climber which produces masses of flowers in Summer to Autumn and spot flowers right throughout the year. Provides a dense cover when grown in full sun and comes in two forms - blue or white flowers.

POTATO VINE WHITE

POTATO VINE BLUE

Pandoreas

A fast growing, hardy, evergreen climber with dark green foliage. Produces a mass of trumpet-shaped, fragrant flowers which cascade to form a stunning display. Ruby flowers in spring and white and purple flower in summer.

RUBY

PURPLE

Billy Can[®]

GRASSES

BILLY CAN GRASSES ARE AN INNOVATIVE RANGE OF ROBUST GRASSES PERFECT FOR COMMERCIAL AND RESIDENTIAL USE. SPECIALLY SELECTED FOR AUSSIE BACKYARDS, THEY SUIT BOTH CONTEMPORARY AND NATIVE STYLES.

- WINTER HARDY AND EVERGREEN
- LOW MAINTENANCE
- VERY COLOURFUL
- MULTIFUNCTIONAL
- PERFECT FOR LIVING WALLS, MIXED CONTAINERS, ROOF GARDENS AND EDGES

Lomandra Crackerjack™

Crackerjack™ exhibits a strong, but graceful presence in the landscape. The fine leaves of Crackerjack sway in the wind, creating a soft flimsy element, to soften hard landscapes such as paths and driveways. New seasons growth is blue maturing to green with age. Reaches a height of 70cm and width of 1m.

Lomandra Trojan™

Trojan™ is a hardy, drought tolerant Lomandra variety. It grows best in free draining soil conditions. The narrow leaves of Trojan form a dense tuft making it ideal for growing grass-like hedges, planting as a border plant around paving or group planting for ground cover under trees or around shrubs. Grows to 50-70cm.

Lomandra Tropi™

Tropi™ is a new, relatively compact hystrix variety that will reach around 80cm tall and form a clump 60-80cm wide. Selected for its clean growing foliage which doesn't burn or yellow in Winter along with a gently arching to weeping habit. It is an extremely tough and vigorous grower which will tolerate waterlogged or dry conditions. It will produce yellow flowers that stand just above the foliage height.

Dianella Blue Ripple™

Blue Ripple™ develops an attractive clump of broad, light blue foliage, ideal for creating natural garden borders, or planting amongst low growing flowering plants. Blue Ripple is very hardy, drought tolerant and low maintenance. In late Spring, a multitude of royal blue berries provide a spectacular display just above the foliage. Height 30-35cm.

Dianella Streetscape™

Streetscape™ is a very impressive Australian grass. It offers a great looking dense plume of strappy foliage. Streetscape tolerates all climates from the tropics of QLD to the temperate states of southern Australia. It is a superior Dianella variety for residential gardens and commercial landscaping projects. Grows to 60cm high and 50cm wide.

Festuca Beyond Blue™

Beyond Blue™ develops an attractive clump of light blue foliage, ideal for creating natural garden borders, or planting amongst low growing flowering plants. Beyond Blue™ is very hardy, drought tolerant and low maintenance ideal for creating dramatic clumps contrasting with clipped hedges and shrubs. Height 40cm.

Lomandra Ocean™

Ocean™ has a dense, upright habit with blue-green foliage that remains very clean throughout the year. Small blue flowers are held within the foliage, out of sight. Lomandra Ocean™ is tolerant of extreme heat, frost and drought and is a quick and easy to grow longifolia. Height to 30cm and 60cm wide.

Lomandra Low Vista™

Low Vista™ is a new compact variety with deep lime, fine foliage and a compact, dense and tight growing habit. This variety is perfect for landscape planting where a lower sightline is required. Low Vista is very tolerant of sun, heat and drought and very uniform and vigorous in production. Grows to approximately 40-60cm high and wide,
